

# Velcro and Velcro non punched

Sizes: 35 - 46 Available colours: ○ ●

A light, flexible, washable up to 40 ° C and very durable, derived from the manufacturing system by direct injection. There is no stitching or gluing between the upper and sole: the shoe is made in one piece. With a non-slip sole and unisex upper, it provides support for the foot without compression.

The raised instep allows the weight of the body to be distributed evenly. The upper is perforated to increase transpiration. A Velcro strap run through a ring helps to adjust the shoe firmly to the wearer's foot.

CERTIFICATE EN ISO 20347

Component	Material	Properties and benefits
Upper	Onmicro	<ul style="list-style-type: none"><li>• Breathable</li><li>• Waterproof</li><li>• Washable</li><li>• Does not age or split, and highly resistant to tearing and chemical products</li></ul>
Insole	Microfibre over polyurethane foam	<ul style="list-style-type: none"><li>• Includes Therym-tex treatment (anti-bacteria)</li><li>• Absorbs humidity</li><li>• Comfort</li></ul>
Midsole	Raffia-type fabric	<ul style="list-style-type: none"><li>• Anti-static</li></ul>
Sole	Single density polyurethane	<ul style="list-style-type: none"><li>• Lightness</li><li>• Flexibility</li><li>• Non-slip</li><li>• Impact absorption</li><li>• Ensures well-balanced support for the sole of the foot</li><li>• Resistant to hydrocarbons</li><li>• Insulates against heat and cold</li></ul>
