

Velcro and Velcro non punched

Sizes: 35 - 46 Available colours: ○ ●

A light, flexible, washable and resistant shoe, derived from the manufacturing system using direct injection. There is no stitching or gluing between the upper and sole: the shoe is made in one piece. With a non-slip sole and unisex upper, it provides support for the foot without compression.

The raised instep allows the weight of the body to be distributed evenly. The upper is perforated to improve transpiration. A Velcro strap run through a ring helps to adjust the shoe firmly to the wearer's foot.

CERTIFICATE EN ISO 20347

Component	Material	Properties and benefits
Upper	Onmicro	<ul style="list-style-type: none">• Breathable• Waterproof• Washable• Does not age or split, and highly resistant to tearing and chemical products
Insole	Microfibre over polyurethane foam	<ul style="list-style-type: none">• Includes Therym-tex treatment (anti-bacteria)• Absorbs humidity• Comfort
Midsole	Raffia-type fabric	<ul style="list-style-type: none">• Anti-static
Sole	Single density polyurethane	<ul style="list-style-type: none">• Lightness• Flexibility• Non-slip• Impact absorption• Ensures well-balanced support for the sole of the foot• Resistant to hydrocarbons• Insulates against heat and cold
