

MY CODEOR PLUS

Sizes: 36-45

Color:

A light, flexible, washable and resistant shoe, manufactured in one piece through direct injection making process, originating a highly differentiated quality rest and ergonomic design of products, resisting longer, and showing superior lightness and flexibility. There is no stitching or gluing between the upper and the sole. With a non-slip sole and a wide unisex form, it provides support for the foot without compression. The last-waist allows for a balanced distribution of body weight. It provides CE certified antistatic and non skid soles with shock absorption. **Soft and breathable upper, entirely water resistant, and showing great resistance against chemical products, oils or solvents. Washable in the washing machine.**

Made according to the **NORM EN ISO 20347:2012 para el nivel de protección OB+SRC+E+WRU.**
