

BLACK **S3**

EN ISO 20345:2011
S3+SRC

Black S3 is a safety sport model with premium properties:

- Manufactured by direct injection, the upper and the sole are fused together in one piece. There is no stitching or gluing.
- The sole, **single-density PU** brings to the shoe light, flexibility, shock absorption and resistance to hydrocarbons.
- The upper, made of **On Dura** textile offers resistance, breathability and waterproof.
- The front and the back side of the shoe are reinforced with **1.7 mm On Suede**.
- Incorporates an **anti-perforation insole** made of a flexible and light textile. A **safety toe cap (200 J)** of polycarbonate and an insole **with antibacterial treatment**.

SIZES: 35 a 48
