YIN ECO is an **ecological** professional sport model with top quality properties::

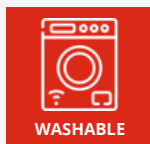

- Manufactured by direct injection, the upper part and the sole are cast in a single piece. **There are no seams or glue.**
- The **single density PU** sole provides the shoe **with lightness, flexibility, shock absorption** and **resistance to hydrocarbons.**
- Cordura® Taal fabric upper + AIR 3D BAMBOO lining, **made with a high percentage of recycled materials.** It offers **resistance, breathability and impermeability.**
- The part of the laces and the back of the shoe are **reinforced with ecological On Micro.**
- **Comfort insole**, created from recycled materials.
