

MYCODEOR

EN ISO 20347:2012 OB+SRA+E

Tallas: 35 to 48
Colores: Black and White
Weight: 256g (per foot)

MYCODEOR is a very light and flexible moccasin type model with top quality properties:

- Manufactured by direct injection, the upper part and the sole are cast in a single piece. **There are no seams or glue.**
- The **single density PU sole** provides the shoe with **lightness, flexibility, shock absorption and resistance to hydrocarbons.**
- Moccasin-type model that adapts to the foot and does not require tying. **Putting on and taking off quick and easy.**
- It incorporates an **antistatic insole** made of a flexible and light textile.
- **Comfort insole**, absorbent fabric on polyurethane foam with **antibacterial treatment.**
