

SPORTS SHOE MODEL **YIN**

This shoe of sporty character, presents as more outstanding characteristics:

- Manufactured by **direct injection**, the upper and sole are fused together to form a whole, avoiding stitching and gluing.
- The sole, mono-density polyurethane, is light, **flexible and shock absorbing**.
- The upper is made of a Cordura-type textile material that offers **resistance, breathability and waterproofing**.
- The toe cap and rearfoot are reinforced with a 1.4 mm microfibre.
- It incorporates a very comfortable insole, **with antibacterial treatment**.
